

AUTUMN TERM 2023

# Embark on a Friendship Revolution

*with Team Duncombe's Empowering Education for Girls, Ages 8-11*

In our commitment to empowering girls aged 8-11, Team Duncombe posed a crucial question to our staff: How can we provide our girls with the tools to navigate the complexities of friendships and find their own solutions?

**HAPPIER GIRLS  
DO BETTER**

Our answer: Introducing girls in Years 4-6 to the award-winning 'Girls on Board' Program, a transformative approach designed to empower them with the skills to navigate the varied voyage of girl friendships through a series of workshops and discussions. Here are five reasons why we've chosen this award-winning approach:

**1. Navigating Friendship Challenges:** 'Girls on Board' goes beyond being just a program; it's the key to unlocking independence and understanding the complexities of girl friendships.

**2. Empowerment Toolkit:** Recognising that girls are the experts in their friendships, we fuel their ability to traversing friendship tempests. 'Girls on Board' sessions provide a safe haven for non-judgmental, reflective adventures, raising empathy levels and transforming concerns into connection.

**3. Parental Peace:** With empowered girls finding their own solutions, parents can breathe easy, focusing more on their child's happiness.

**4. Educational Freedom:** 'Girls on Board' brings more curriculum focus, with girls confidently steering their friendship ships, allowing teachers to navigate educational seas with ease.

**5. Happier Learning:** Happy girls learn better. 'Girls on Board' creates a space where girls flourish, thrive, and learn effectively.

Our Team Duncombe members have undergone extensive training to successfully deliver this impactful program to our girls, ensuring they have the right tools to be ready for life beyond Duncombe. Join us in this empowering journey!
